

We would like to invite, Teachers, Careers Advisers, Parents and Pupils to attend our forthcoming Open Events.

With College Applications for 2019 Entry now open, it is understandably a busy time for teachers & careers advisors. With so much information available to pupils on A Levels, BTECs, Technical Skills qualifications and Apprenticeships with a variety of entry requirements, it can be a confusing time for young people choosing their next steps.

Open Events provide a fantastic opportunity to meet potential colleges, view facilities and find out about options to suit individual aspirations. Our next Open Event is on **Monday 29th October 2018 5pm-8pm** followed by our event on **Wednesday 14th November 5pm-8pm**.

Please find below information on the exciting activities taking place during the evenings. We would encourage pupils from Years 9, 10 and 11 to attend these events.

- **Medical Mavericks** - Demonstrating the range of opportunities across the NHS, demonstrating practical skill such as the iPhone retina scan, ECG and Ultrasound.
- **Challenge the Champions** – Race a virtual Usain Bolt, test reactions on a BATAK wall
- **Emotion Robotics Developers** – Programming Pepper the Robot – pupils will be able to speak to the developers and find out more about Artificial Intelligence.
- **Employers and organisation including** NHS, Virgin Care, CCG, Edge Hill University, UCLan, Graylaw Freight Group, Peel Ports
- **Have a Go Activities** – demonstrations and master classes in individual course areas delivered by expert teaching staff and students
- **Careers, Information, Advice & Guidance** – Staff will be on hand to offer support through the college process and discuss options available.
