

## Facebook Apprenticeship Roles

Facebook are advertising apprenticeship opportunities for students who would like the experience of living and working in London.

If you have any students who took place in the **Facebook Elevate Programme 2020** and would like to apply, please advise them to detail their experience in their application. Also if you could ask these same students to email Lucy Kemp, Facebook's Emerging Talent Recruiter ([lucykemp@fb.com](mailto:lucykemp@fb.com)) to let her know that they are a graduate of the Elevate Programme and have applied.

There is more than one position available on each apprenticeship programme and there is a rolling deadline so **early applications are encouraged**.

Click below to find out more details about each opportunity:

[IT Helpdesk Apprenticeship](#)

[Software Engineer Apprenticeship](#)

## Diageo Apprenticeship Roles

Diageo are hiring across the UK and have vacancies at Runcorn for **Engineering Apprentices** and **Production Operator Apprentices**.

More details about Diageo's apprenticeship programmes, including introductory video, can be found [here](#).

Students can also watch our [Creating Careers](#) episode with Diageo Apprentices explaining their roles and why they chose the apprenticeship route.

Apply for the Production Operator Apprenticeship Programme [here](#) and the Engineering Apprenticeship Programme [here](#).
