The Talent Foundry

LifeSkills created with Barclays

LifeSkills
Created with  BARCLAYS

LifeSkills created with Barclays offers a standalone workshop or series of workshops for students aged 11 to 18 years old. Focused on developing core transferable employability skills, raising self-confidence, motivation and aspirations.

The Big Idea

DELLTechnologies

The Big Idea workshop is available to Year 7 - 9 students. Students will act as a brand new 'social enterprise' company who want to gain funding from Dell for a new and exciting tech product!

Powering Transformation

DELLTechnologies

The 2-3 hour inspirational workshop will give your Year 7-8 (S1-S2 Scotland) students an insight into higher education whilst taking part in a problem-solving challenge which focuses on solving social and environmental issues using tech!

Dell: Powering Potential Virtual Insight Sessions

DELLTechnologies

Brand new series of one-hour virtual masterclasses covering all things tech, business and careers. Available to all students in KS4 + KS5, who will hear from engaging expert speakers from Dell and UK universities on areas such as AI and Cyber Security to Building your Brand and Gaming!

NextGen Nurse workshops with NHS -

NHS

A 2-hour virtual workshop for KS4 and KS5 students supported by NHS nursing ambassadors aimed at dispelling the myths around the nursing sector and informing young people about the amazing opportunities that a nursing career can offer.

Turn over to see further opportunities available

M&G Enterprise Challenge

A fantastic, one day, curriculum linked numeracy workshop for KS3 students (S1-2 in Scotland) that puts students in charge of organising a large scale event. In the process, they'll develop their mathematical knowledge and core transferable skills.

M&G Skills for Life

A series of four virtual workshops for KS5 students (S5-S6 in Scotland) exploring their strengths and areas of development, and how best to promote themselves when applying for jobs, university or apprenticeships.

KPMG WorkReady

A workshop for KS3, KS4 + KS5 helping to develop core transferable & employability skills by challenging participants to work together to use the latest emerging and cutting-edge technologies to solve real-life KPMG client briefs.

Skills for Life Website - Opportunity for students to have CV reviewed by M&G!

This brand new digital platform allows you to submit your students' CVs for review by M&G colleagues who will provide tailored feedback, as well as edit the CV to bring it up to standard. Register for free on the Skills for Life website, or contact us directly, to find out more.

New programmes coming in Autumn Term 2021 - express interest now!

Track To The Future with Network Rail

A series of four workshops for Year 11 students in Birmingham or Milton Keynes delivered virtually or in school, and supported by Network Rail volunteers.

Through learning specifically about programme management and tech streams, students will develop essential employability skills and explore the vast career opportunities available in the rail industry .

Junior Engineering Engagement Programme (JEEP)

A science-focussed programme for KS3 students delivered in school to help inform young people about the career opportunities available in facilities management and electrical & mechanical engineering, with a focus on apprenticeships.

Free resources available from more of our partners!
